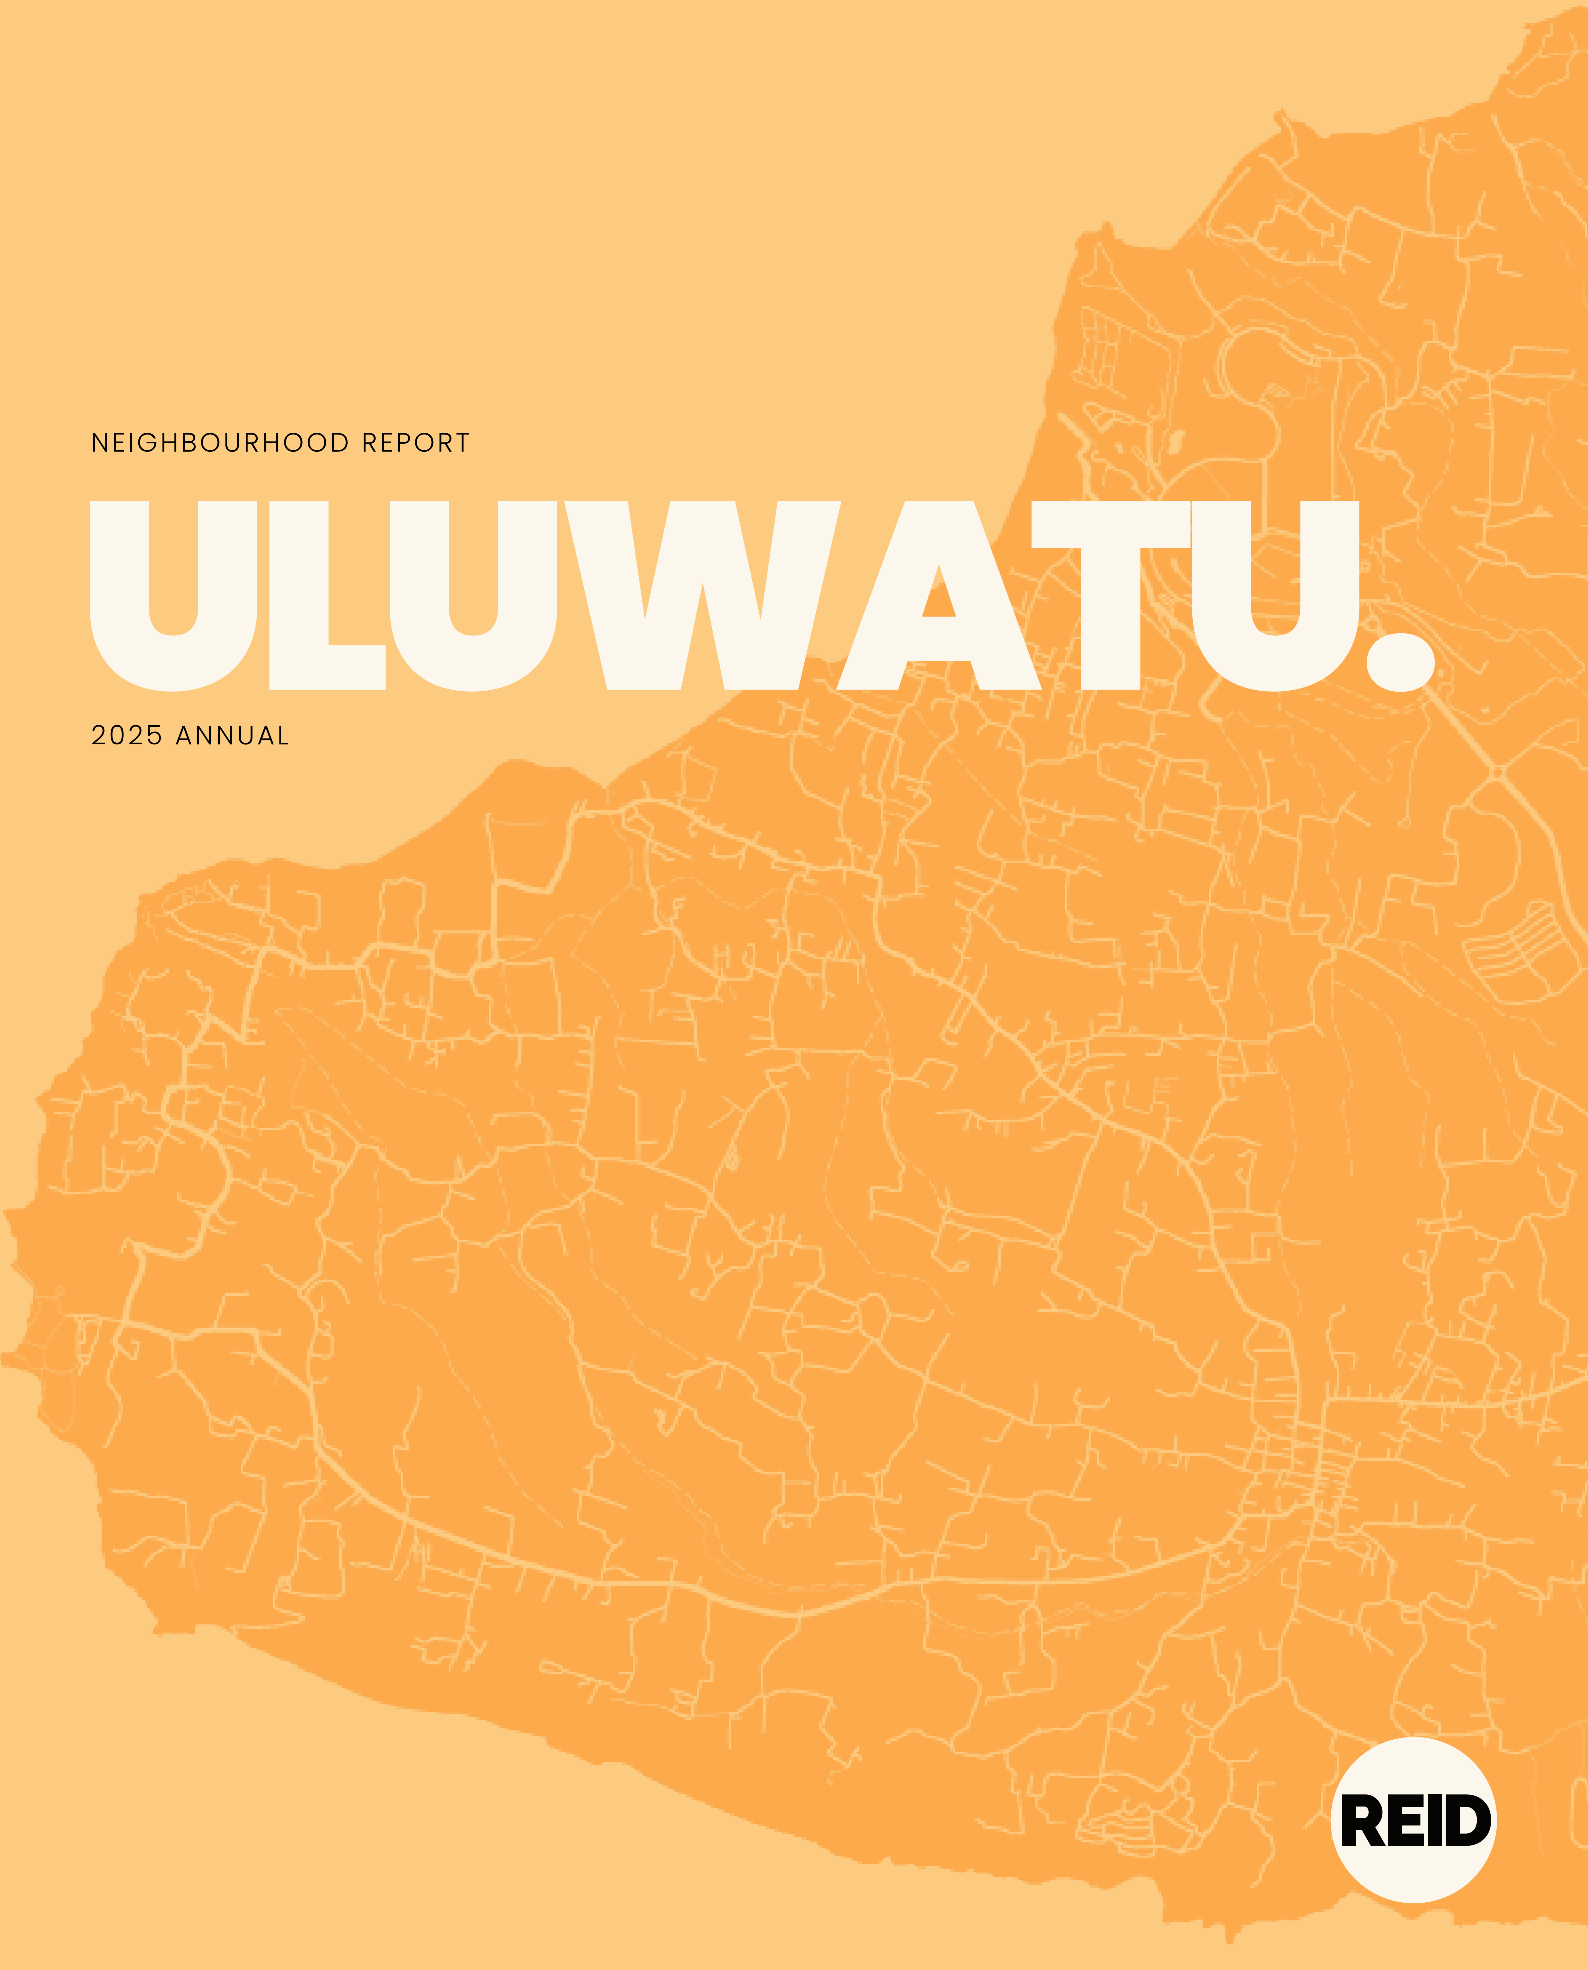
ULUWATU.

2025 ANNUAL

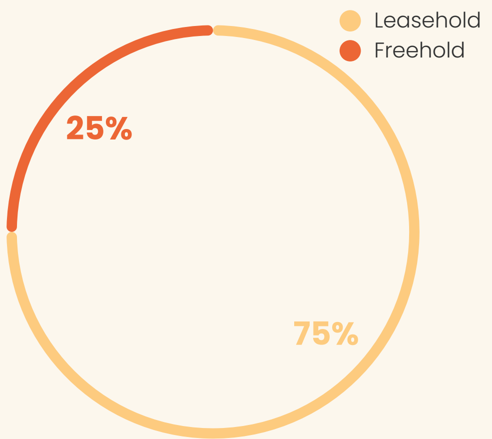


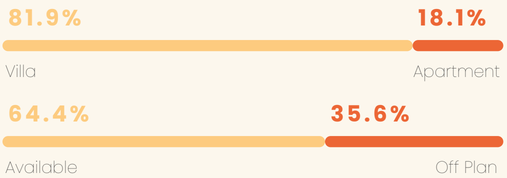
REID

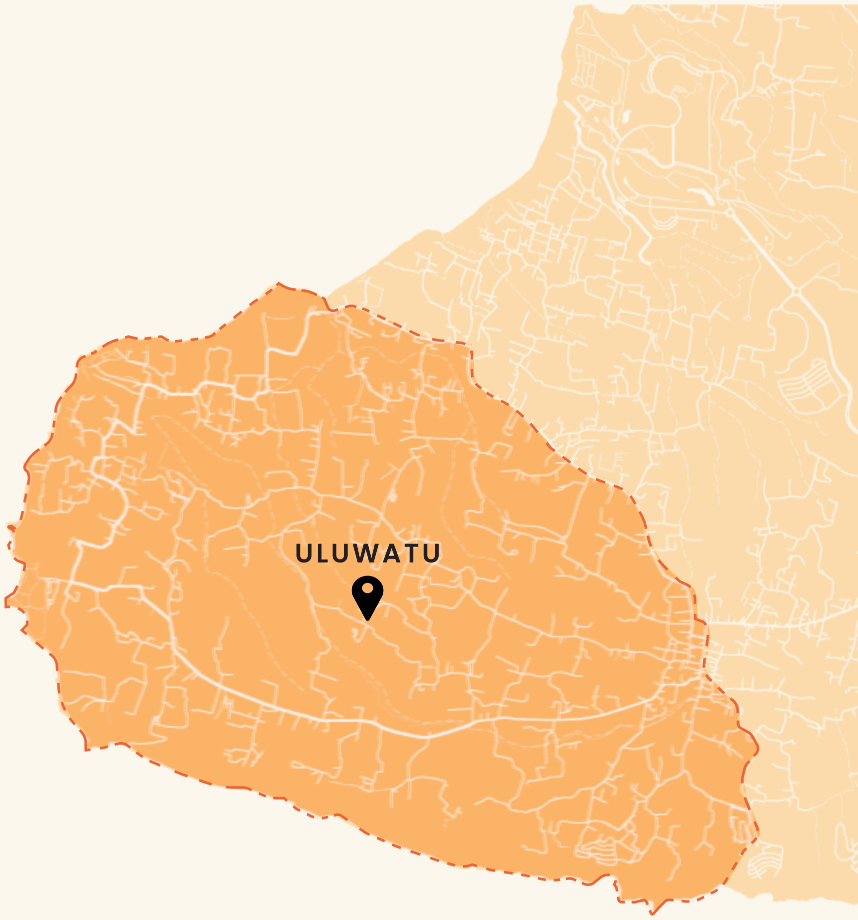
LOCATION

Uluwatu
Pecatu
Badung Regency, Bali

MARKET BREAK DOWN







Uluwatu's 2025 story is one of the more interesting in this report set: a market that posted a significant median price decline yet showed genuine improvement in rental fundamentals and pricing efficiency. The median has adjusted to \$239k from \$303k in 2024. But the monthly trend is more nuanced, pricing tracked upward through the year from \$228k in January to \$239k by December, suggesting the market found a floor early and has been recovering since. Leasehold accounts for 75% of stock, villas for 81.9%, with apartments at 18.1%, the highest apartment share of any location in this report.

Off-plan supply remains elevated at 35.6%, down from 44% in 2024, with supply growth concentrated in 1- and 2-bedroom configurations reflecting a shift toward more accessible, compact product. Discount rates have compressed dramatically to near-neutral levels from a wide range in 2024. Buyers and sellers are transacting closer to asking price than at any point previously — a clear sign of improving market efficiency despite the lower median.

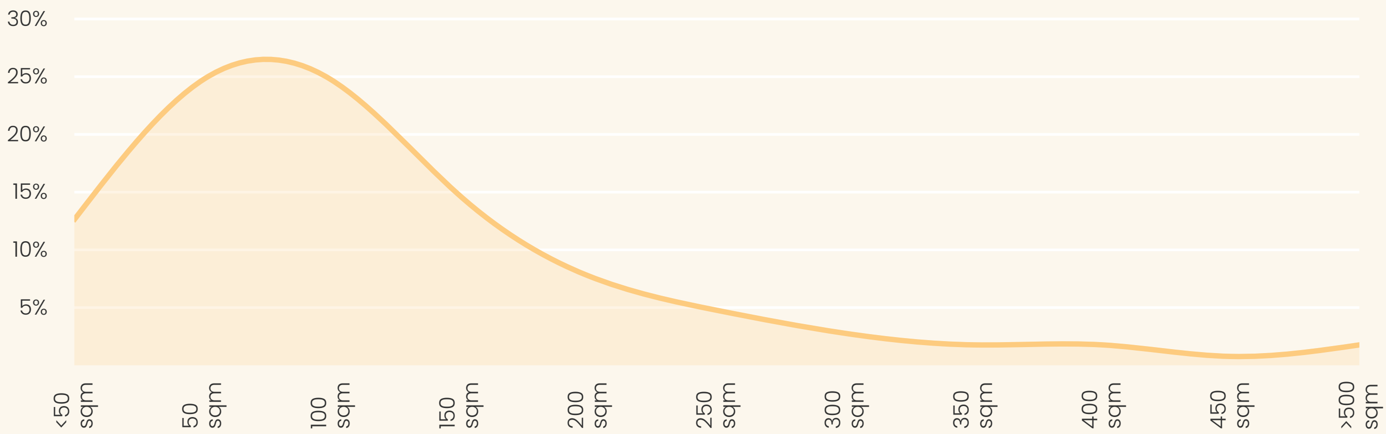
PROPERTY SIZE DISTRIBUTION

DATA FOR LEASEHOLD VILLAS ONLY



Uluwatu properties run smaller than the broader Bali market. Median sizes: 1-beds at 62 sqm, 2-beds at 129 sqm, 3-beds at 196 sqm, 4-beds at 350 sqm, and 5-beds at 417 sqm, all reduced versus 2024, reflecting a continued shift toward investment-grade, accessible product. Lease distribution is the most 30-year-weighted of any location in this report, a clear positive for investors focused on hold period. Annual pricing steps from around $5k for 1-beds to approaching $40k for 5-bedroom stock.

The rental story in 2025 is Uluwatu's most compelling data point. Average occupancy has improved to 55% from 51.1% in 2024, bringing the location to exactly the Bali market average after consistently sitting below it. Daily rates improved across all bedroom types: 1-beds from $138 to $154, 3-beds from $248 to $272, 4-beds from $391 to $439, and 6-beds from $769 to $897, the clearest broad-based rental improvement of any location in this batch. The sales market has reset and the rental market is strengthening, pointing toward improving underlying fundamentals.
