2024 ANNUAL

**REID**

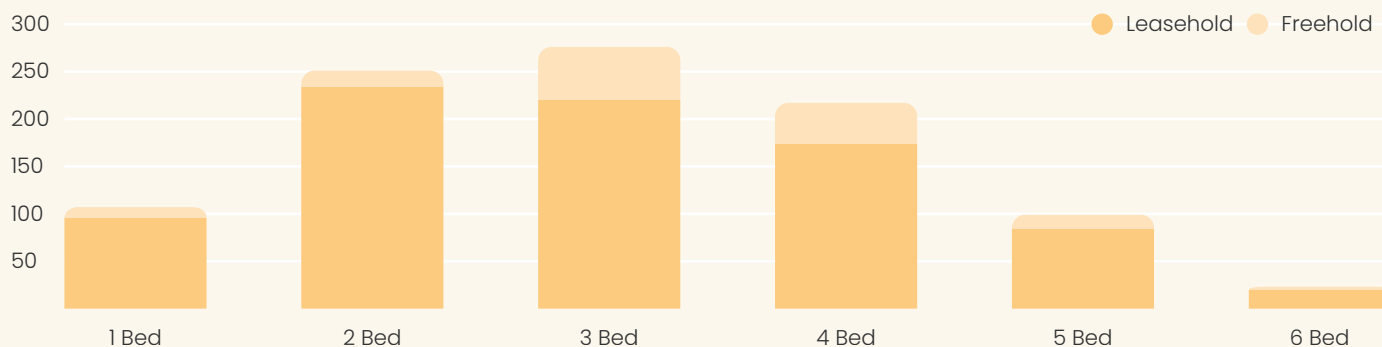

**LOCATION**

Berawa  
Tibubeneng, Kuta Utara  
Badung Regency, Bali

**MARKET BREAK DOWN**

Berawa continues to impress, balancing healthy price growth with high transaction volume. Available supply makes up 10.6% of the total leasehold market, making it a prominent player in Bali's property scene. Prices have risen 3.9% over the past year, pushing median prices 17% above the market average, reflecting the area's consistent appeal.

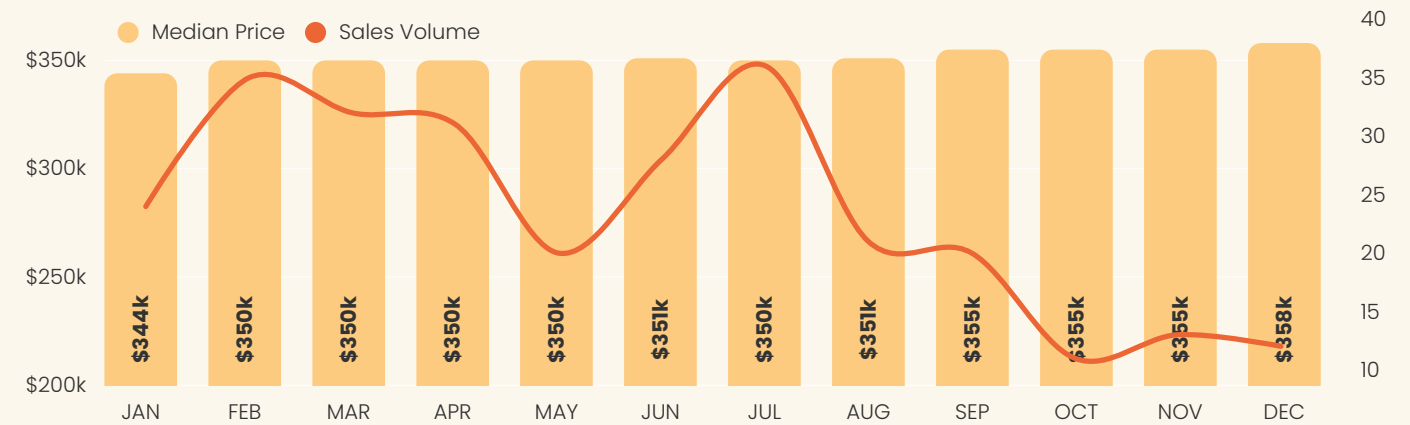

The market is active, with a clearance rate of 25% just above the 24% market median. At 283 sales, Berawa is among the busiest locations on the island. However, despite its strong transaction volume, rental performance remains underwhelming at 57% occupancy, a low figure for such a high demand area. It seems investors may be holding back in terms of rental yields, but the market's overall health remains solid.

Berawa’s property offerings are evenly distributed across 2-, 3-, and 4-bedroom properties, with these categories representing 75% of available supply. This diversity is reflected in sales, with 75% of transactions falling within the same range. The standout here is 4-bedroom properties, which have a strong 27% clearance rate.

Despite the healthy sales activity, listing prices have dipped by 2.5%, likely reflecting the increased competition from higher supply. This is also evidenced by the 7% discount rate, signaling a shift where buyers are becoming more discerning. Berawa’s appeal remains, but the market is adjusting, where buyers may find opportunities in a landscape that’s evolving.
