MARKET BREAK DOWN

Canggu continues to dominate Bali's leasehold market by sheer volume. Available supply sits at a market-leading 15%, giving buyers more choice than anywhere else. Prices have climbed 3.7% over the past year, but unlike Bali's premium enclaves, median values remain level with the wider market.

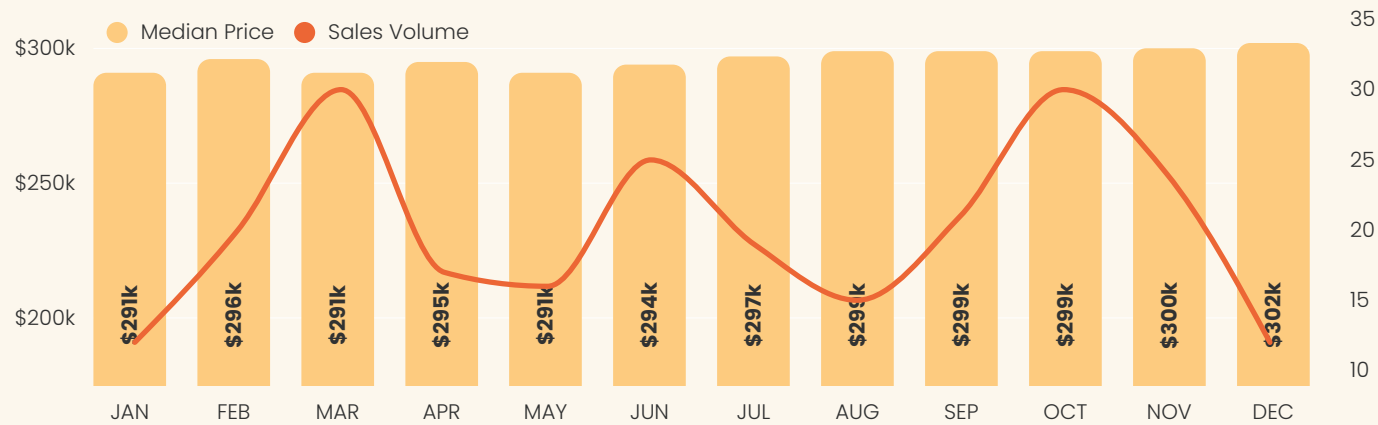

Despite the high activity, sales momentum is underwhelming. A clearance rate of just 18% falls well below the 24% market median, yet 259 recorded sales still place Canggu among the island's busiest markets. Meanwhile, rental performance holds steady at 60% occupancy, strong but not standout. More supply means more options, but also more competition.

DATA FOR LEASEHOLD VILLAS ONLY

Canggu’s inventory offers range. 90% of available properties fall between 1 and 4 bedrooms, keeping options open across different buyer segments. 3-bedroom villas dominate sales at 32%, and with a 20% clearance rate, they’re moving better than other segments.

Price movements suggest a market adjusting to increased supply. Listing prices have dipped 2%, while a 15% discount rate suggests buyers are holding firm in negotiations. More choice, more competition. Canggu is a buyer’s market for those willing to play it smart.
